TARUN JACOB ABRAHAM

A-Level Student · Software Development · Leadership & Public Speaking

Dubai, United Arab Emirates · tarun.jacob2927@gmail.com · LinkedIn · GitHub

ACADEMIC PROFILE

A-Level student interested in the intersection of software engineering, responsible artificial intelligence, economics, and public communication. Pursues independent technical projects alongside public speaking, student governance, competitive academic activities, and community service.

EDUCATION

Al Diyafah High School | Dubai, United Arab Emirates 2014–2027

- Current A-Level subjects: Mathematics, Economics, and Accounting. Expected completion: July 2027.
- IGCSE examinations, 2025: 3 A* and 5 A grades; recognized by the school for excellent academic achievement.

INDEPENDENT PROJECTS & TECHNICAL WORK

TacticLens Live | Football simulation & explainable AI 2026

- Developed a deterministic, fictional 11v11 football simulation with a coherent event timeline, 2D/3D replay, shot data, and expected-goals estimates. Integrated Microsoft Foundry-based multi-agent commentary and verification mechanisms to ground analysis in actual simulated match events.
- Produced as a project for the Microsoft x Premier League Inside the Game hackathon. Public prototype: cookiesgobrr.github.io/tacticlens-live/.

EpilEducate | Swift Student Challenge submission 2026

- Designed and built a SwiftUI learning application about epilepsy and seizure response. Implemented interactive first-aid instruction, illustrative EEG patterns, and sensory features intended to improve accessibility.

Margin | Offline-first iPad learning tool 2026–present

- Developing a native Swift Playground that transforms spoken page-structure instructions into editable headings, notes, diagrams, and study prompts while preserving offline functionality and user control. Intended for the 2027 Swift Student Challenge.

admunOS | Event operations software 2026

- Built a prototype delegate-management workflow using Google Sheets, Apps Script, QR-based attendance and meal scanning, and a server-side proxy. Designed identifiers and access boundaries to avoid exposing student data in QR codes.

Additional experiments | Independent technical projects 2024–2026

- Configured a macOS-compatible x86 laptop (Hackintosh); created a Microsoft Teams–Spotify status connector through Power Automate and APIs; developed a barcode generator compact enough to encode in a QR code.

PUBLIC SPEAKING

TEDxAl Diyafah High School | Selected student speaker

- Presented "Between Creation and Becoming: How Artificial Intelligence Is Growing Faster Than We Can Control," examining the accelerating development of AI and the need for responsible human oversight. Talk published on the official TEDx Talks channel.

TED-Ed Student Speaker | Student talk

- Delivered the TED-Ed student talk "Cybersecurity's Importance in Today's Growing Society," addressing the significance of cybersecurity in a digital world.

LEADERSHIP & ACADEMIC ACTIVITIES

Al Diyafah Model United Nations | Appointed Logistics Manager, ADMUN 2.7 2026

- Responsible for conference logistics preparation; previously co-chaired the House of Heroes committee, participated as a delegate in four ADMUN editions, and earned multiple delegate awards.

Wharton Global High School Investment Competition | Founder & school team leader

- Introduced the investment competition to the school, led its inaugural team, and helped develop asset-allocation strategy against a simulated client brief and long-term goals.

School Entrepreneurial Club | Founding core member

- Helped establish the school's first entrepreneurial club; coordinated activities and content and contributed to the NextGen Entrepreneurial League, an inter-school entrepreneurship competition.

Student Representative Council | Elected Year 11 delegate

- Represented student concerns to school leadership and co-organized a service-learning initiative offering English-language and IT-skills support to support staff.

HONORS & COMPETITIVE DISTINCTIONS

- School award for excellent academic achievement following 2025 IGCSE results (3 A*; 5 A).
- Runner-Up Best Delegate, NMSMUN 2023; Honourable Mention, ADMUN 2.3.
- Third place, Sustainovation Challenge.

ARTS, MUSIC & EXTERNAL QUALIFICATIONS

- Trinity College London, Rock & Pop Vocals: Grade 8 (Merit), Grade 7 (Pass), Grade 6 (Merit), Grade 5 (Distinction).
- Trinity College London, Communication Skills: Grade 7 (Distinction); Guitar: Grade 3 (Merit).

INTERNSHIPS & COMMUNITY ENGAGEMENT

The Hive Drama and Performing Arts Center | Student intern Dec 2025

- Supported children's drama and learning activities in a fast-paced collaborative setting.

Ponnomanakal | Volunteer session facilitator

- Led sensory activities for teenagers and adults with additional support needs.

CERTIFICATIONS & PROFESSIONAL TRAINING

- **Goldman Sachs – Internal Audit Job Simulation** | Forage · Issued Aug 2025 · Credential ID: fNQTSXuLYJ5h5JitS
- **Google – Get Started with Cloud Storage Skill Badge** | Google · Issued Jul 2024
- **Cisco – Introduction to Cybersecurity** | Cisco · Issued Dec 2023 · Skills: cybersecurity, network security
- **IBM – Explore Emerging Tech** | IBM SkillsBuild · Issued Aug 2023 · Skill: emerging technologies
- **Mastercard – Cybersecurity Job Simulation** | Forage · Issued Jun 2023 · Skills: cybersecurity, network security · Credential ID: oPmvTjDPrSyPB6gtp
- **IBM – AI Foundations** | IBM SkillsBuild · Issued Mar 2023 · Skill: artificial intelligence
- **IBM – Cybersecurity Fundamentals** | IBM SkillsBuild · Issued Apr 2022 · Skill: cybersecurity
- **IBM – Working in a Digital World: Professional Skills** | IBM SkillsBuild · Issued Feb 2022 · Skill: digital communication

TECHNICAL SKILLS & INTERESTS

Programming and platforms: Swift, SwiftUI, TypeScript, JavaScript, Python, Git/GitHub, Microsoft Foundry, Power Automate, REST APIs, Google Apps Script. Areas: human-centred computing, AI systems, cybersecurity, financial analysis, public speaking, and music.
